## INNOVATIVE.

Intelligent.  
**INTUITIVE.** Individual.

„As parents we know from our own experience: Your pram must fit you and your life style! That is why we have developed the INDY. It can be individually configured to your family, your needs, your lifestyle. And because life changes constantly with a child, you can update your INDY at any time with different attachments and accessories. So that your pram not only suits you today, but also tomorrow.“

## INNOVATIVE DESIGN –

**AWARD-WINNING STYLE**  
by experts and parents.

Design is more than just a trendy look. Design means finding solutions. Simplify the use. Perfect functions. And merge everything into a timeless form. That is why you and your baby will also benefit from INDY's innovative design. Not only because your pram looks extremely chic. But also because it is so versatile and uncomplicated to use. International experts have therefore already honoured INDY with several awards. But the biggest distinction for us is not an award - but your satisfaction!

## GREAT IDEAS

DO NOT NEED A LOT OF SPACE

With a child it often has to go fast. You want your pram to be ready to go with just a few movements and do not have to search for the right control buttons. Folding and unfolding the frame, clicking the adapter, moving the swivel slide - all the important functions of the INDY are combined in a single central joint. With a diameter of just 80x39 millimetres it is extremely small, but the technology behind it is great!

**MOBILITY**  
FROM THE VERY BEGINNING

For your baby, you want only the best and protect it from the first day. We can help you with that! In order to make you feel safe from the start, we monitor the production of our prams very carefully. All INDY textiles are elaborately sewn by hand. Stitch for stitch, experienced seamstresses sew a quality product that you can trust in the German traditional business.

**PREMIUM  
QUALITY**  
from Germany

## EXCLUSIVE MATERIALS

Your baby is special. Your INDY is too. This is due not least to the exclusive materials we use. All our textiles are free from harmful substances and comply with the Oeko-Tex® Standard 100. Whether striking or discreet, classic or daring - whatever design you choose, INDY always stands out.

HARMFUL SUBSTANCES

### SUSPENSION ARTIST

Float over the asphalt! Thanks to its foamed EVA core with a rubber mantle, the air + wheel is very robust and offers best handling characteristics. Thanks to a patented front wheel suspension, the wheels simply glide over obstacles.

### DEFLECTOR

Is the sun blinding? Wind in your face? With just one click, change the direction by switching the reversible handle.

### REACH NEW HEIGHTS

Comfortable for shorter parents and easy on the back for taller parents: the height of the handlebar can be individually adjusted to accommodate different body sizes.

### SHOPPING COMPANION

Are you in a hurry to go the paediatrician or the supermarket? Simply click on the infant car seat and your INDY can go anywhere as a practical travel system.

### TABLE NEIGHBOUR

Your child won't be bored: Thanks to a raised attachment, it sits comfortably with you at the table and is also better protected from exhaust gases.

# FUNKTIONEN

## CITY DRIVE

## OUTDOOR-SPECIALIST

Flexible swivel wheels for the city, great tires for the trip to open country: Using the practical interchangeable wheel axle, you are best equipped for any terrain.

## OFFROAD

## VERSATILE INTERCHANGEABLE WHEEL AXLE

## STORAGE SPACE WONDER

Simply store shopping bags & co. in the large bag net. Because there are no crossbars in the way, you can easily reach them at any time!

## STORAGE PROFESSIONAL

Compactly packed: With just a few movements, you can fold the INDY frame to a practical size of only 68 x 57 x 35 cm.

## PLAYMATE

The toy bar made of artificial leather is practical for attaching small books or stuffed animals. For getting in and out, you can easily open it with one hand.

## SPORTS FANS

Just hang it up: With the rugged belt, you can simply carry the frame over your shoulder or hang it on a hook for space saving storage.

with one hand up to the horizontal  
position, attachment for turning

Through its ergonomic design, the Active seat attachment supports the sensitive spine of your child. The textile seat unit is suspended from the frame, which optimally absorbs shocks while moving. The optional tandem adapter allows two seat heights: In the high position, you lift your baby in and out supporting your back, the low position makes it easier for small children to get in and out independently.

# RELAX

## CARRYCOT **RELAX**

Almost like floating - that is what it must feel like for your baby to be pushed in the Relax carrycot! This is suspended from a stable aluminium frame, which absorbs shocks during the trip and does not transfer them to the lying surface. So your baby sleeps comfortably and relaxed. A ventilation system in the carrycot floor protects the allergy friendly soft foam mattress from a build-up of moisture.
